

J C DRAINFIELD INC

THE ONLY SEPTIC COMPANY YOU WILL EVER NEED

239-434-9448

CELEBRATING OUR 30TH YEAR IN BUSINESS

OUR SERVICES:

**Septic Pumping
Septic System Installation
Drain field Repair (free estimates)
Grease Trap Pumping
Grease Trap Installation
Lift Station Pumping
Septic Tank Inspections**

THINGS TO KNOW:

Did you know there have been over 2.6 million septic tanks installed in Florida? Over 40,000 of them in Collier County.

Septic tanks help recharge our ground water and prevent salt water intrusion.

A properly installed and maintained septic system meets or exceeds a Class 1 sewer treatment plant.

Septic tanks should be pumped every three to five years for proper maintenance.

YOU NEED A PUMP WHEN:

Sluggish drains or toilets gurgling, grass in the yard greener in one area. Any plumbing backups.

THINGS NOT TO DO:

**Do not pour grease down drains.
Do not drive on your septic system.
Do not pour bleach in your septic system.**

PRICES FOR PUMP OUTS:

EVERGLADES CITY, PLANTATION ISLAND, CHOKOLOSKEE, AND COPELAND.

\$350 per tank

If installed or repaired after 1998, the cost to clean the outlet filter is an additional \$85.00
